GENERAL GUIDELINES

1. The Journal of Science and Technology is aimed for publishing research works with novel scientific and practical values in scientific research, technological transfer and production practice. The work described must not have been published in or submitted to other scientific journals.
2. The manuscript can be written in both Vietnamese and English. Manuscript submission in English is strongly recommended.
3. The manuscript must be five-page long, typewritten in A4 size and prepared according to the journal's template.
4. All manuscripts will be double blind reviewed. Authors need to ensure that their manuscripts are prepared in a way that does not give away their identity.

7. Authors are requested to submit their manuscript and follow the review progress electronically by using the online submission system on the journal's web site.
8. The detail guidelines for authors and reviewers can be consulted on the journal's website.
